

Traveler guidance centers

13/11/2020

The [**Traveler Health Guidance Centers**](#) of Anvisa and accredited services provide guidance to travelers on health care and the issuing of the International Certificate of Vaccination and Prophylaxis (CIVP). To fast track these services, you can register in advance at the electronic address of the [**National Sanitary Surveillance Agency \(Anvisa\)**](#).

The Centers under private management issue the CIVP only for travelers vaccinated in the service itself.

The issuance of the CIVP depends on the signature of the traveler on the act, whereby their presence is essential (RDC no. 21 of 03/31/2008, item III of Art. 1 of Annex II). For minors, parents, guardians or trustees, may request the issuing of the certificate and shall notarize them in the presence of the authorized health agent.
